

## BONNIE'S STOOL

1. Determine seat diameter and height of stool
2. Locate leg holes and splay
3. Draw side view of opposite legs
4. Make drilling template for seat hole angle

5. Design legs and stretcher and draw side view of adjacent legs
6. Make drilling template for leg hole angle
7. Make full size turning templates for legs and stretcher including tenons
8. Before turning, drill all holes at the correct angles
